Facilities Technician**SiCamore Semiconductor, Inc.**

SiCamore Semiconductor, Inc is a commercial foundry service developing, qualifying, and manufacturing power semiconductors primarily in Silicon Carbide and Silicon. We aim to enable our customers' business and delight them as their premier choice for innovation in power devices.

As A Facilities Technician,

As a Facilities Technician working at the SiCamore Semi Manufacturing Facility in Bend, Oregon, the chosen candidate will have the opportunity to work closely with peers and internal customers to support facilities equipment used in the manufacturing of semiconductor devices. This position is primarily M-F, Dayshift, however the candidate must be flexible when requested to work outside of normal schedule to cover weekends, nights, holidays, vacations, and call outs. Candidate must adhere to Clean-room classifications and protocols. Responsible for working in a dynamic team environment, performing preventive maintenance on building systems, repairing building issues as they arise, and supporting the facilities department in creating a safe, functional, and progressive environment. This position requires judgment and hands-on problem-solving capabilities in reviewing service requests for repairs and maintenance on all production and facilities equipment, determining the nature of the problems, and recommending appropriate solutions. Reporting directly to the Maintenance and Facilities Manager, the Facilities Technician supports the daily operations of the building as well as leading special projects.

Specific responsibilities include:

- Perform routine preventive maintenance on building systems such as HVAC, RODI, AWN, lighting, flooring, doors, windows, furniture, etc....
- Respond to fix issues and repair/troubleshoot the issue as needed.
- Perform general painting, drywall, and finish work.
- Perform calibration procedures.
- Assist in the installation of building infrastructure items and equipment.
- Play a key role the safety and work environment of the building.
- Help manage vendors and outside contractors as needed.
- Complete special projects as assigned by the Maintenance and Facilities Manager.
- Must be a member of the Emergency Response Team (ERT) and be HAZWOPER certified.
- Must pass medical physical for full face respirator and SCBA.
- Must be comfortable wearing personal protective equipment (PPE).
- Be able to lift 50 lbs.

To be successful in this role, candidates must possess the following background, skills, and experience:

- Associate degree or technical certifications relevant to the position – Bachelor’s degree preferred.
- Additional years of experience may be used in place of formal degree.
- 5+ years working in support of industrial or manufacturing facilities, construction, or operations.
- Working knowledge of HVAC, welding, electrical, carpentry, and plumbing.
- Experience in Wafer Fab preferred.
- High level of attention to detail.
- Good mechanical aptitude.
- A willingness to take direction.
- Strong written and verbal communication skills.
- Self-motivator: ability to work independently under general guidance and direction.
- Ability to independently learn systems and processes associated with the role.
- Skills in, or willingness and aptitude to learn, computer software programs.

Specific job duties assigned within internal eQMS System.

Compensation is commensurate with experience and qualifications. Company provides medical and dental insurance, paid vacation, and sick time off, paid Holidays, and a 401k plan. Each job at Sicamore Semi belongs to a specific job classification which has its own standard pay grade and is grouped in categories according to complexity, responsibility, and impact upon company operations. Nonexempt positions may be overtime eligible.

Positions with Sicamore Semi may require a US citizenship or permanent residency to be in compliance with ITAR regulations. If you are not a US resident or citizen, you may be asked to obtain an export license.

Sicamore Semi is an Affirmative Action and Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to race, color, gender, sexual orientation, religion, national origin, marital status, age, disability, veteran status, genetic information, or any other protected status.
